WHERE YOUR **BRIGHT** FUTURE BEGINS

Dear Parents and Guardians,

October has been a month of achievements and growth at Brights International School. As we welcome the colorful season of autumn, we're excited to share some of the wonderful moments and initiatives that have shaped this month.

Star of the Month:

In the Preschool Department, we celebrated the shining stars among our youngest learners. "Star of the Month" is a recognition of their exceptional efforts, creativity, and kindness. These children exemplify the qualities we hold dear at Brights International School, and we couldn't be prouder.

Parents' Orientation Day

We hosted a comprehensive parents' orientation program for the primary, middle, and high school departments. The event aimed to foster a strong partnership between the school and parents, ensuring the holistic development and academic success of all students. This was followed by presentations from department heads, who provided detailed insights into the curriculum, teaching methodologies, and assessment procedures for each stage of education.

As we have always, we will keep demonstrating our commitment to creating a supportive and empowering learning environment for all students.

College and Career Readiness Seminars:

The High School Department at BRIGHTS International School has proudly held a "Career and College Readiness" seminar with **Mr. Tarek Sharaf**, Director of the International Accreditation Consultants, and a second orientation seminar with **Mrs. Azza Al Shorbagy**, an Educational Consultant & Specialist from Future Way. These seminars aim to raise aspirations and develop understanding, commitment, and other essential skills that would advance our Grade 11 and 12 students to different majors and most university requirements in and outside Turkey. Prolific questions were addressed, especially concerning the external exams (SAT & AP). Our Juniors and Seniors had an uplifting college experience. Careers and college readiness' are an integral part of our school.

Turkish Republic Day Celebration

100★. YILI

On October 29, 2023, Turkey commemorated a significant milestone - the 100th anniversary of its establishment as a republic. This historic event marks a century of remarkable transformation, resilience, and steadfast dedication to building a modern, democratic nation.

Teacher's Development Workshop

Education is a never-ending process. At BRIGHTS, we hold regular professional development workshops and seminars to improve the quality of education we seek. Education does not end with earning a degree and beginning a career. Career-minded individuals can constantly improve their skills and become more proficient at their jobs by

On Saturday, October 28, we held a professional development workshop for our Preschool, Primary, Middle, and High department teachers, about the teachers' evaluation criterion and other important issues regarding the overall improvement plan of our school.

Incorporating Learning Centers in KG2 Classes

We're thrilled to announce that we've introduced learning centers in our KG2 classes. These centers are dynamic hubs of exploration and discovery, designed to foster hands-on learning and in-depth engagement with a variety of subjects. This new approach is already sparking curiosity and enthusiasm in our young learners.
